TOSH MOHAN DEV): (a) to (d) The Steel Development Fund (SDF) was constituted in June, 1978 to assist inter alia the modernisation and development programmes of the Steel Sector.

The Steel Development Fund has been utilised mainly to provide loans to steel producers for financing schemes, projects and capital expenditure for modernisation, diversification and improvement of the technology and efficiency of iron and steel production.

The SDF has helped the main steel producers in financing their modernisation and expansion plans. However, after the deregulation of steel prices w.e.f. 16.1.92, the Main producers of Steel represented that the SDF levy may be discontinued because it placed them at a disadvantage vis-a-vis other domestic producers and also against imported steel on which no SDF contribution was required to be paid. After examining all the relevant issues, SDF levy was discontinued w.e.f. 21/22.4.94. There is no proposal to revive the SDF levy. However, the Joint Plant Committee continues to be responsible for the management and operation of the corpus of the Steel Development Fund and interest received and accrued thereon under the directions of the SDF Managing Committee.
